SUMMARY

Full-stack software engineer with a background in enterprise CRM implementation and three years of experience designing workflows, data models, and scalable solutions for wealth and asset management firms. Mentored over a year by an Application Development Manager at SS&C, completing production-grade engineering assignments across Java, Spring Boot, React, authentication flows, and API Design. Builder of full-stack application including a Finance Hub (CRM platform with secure authentication) and Dos Santos Swim School (React and Spring Boot). Actively strengthening Computer Science fundamentals through daily data structure and algorithm practice and structured system design study.

SKILLS & CERTIFICATIONS

Web & Development: HTML • CSS • JavaScript • ReactJS • TypeScript • Java • Spring Boot • SQL • Apex • SOQL/SOSL • Git and GitHub • MySQL • PostgreSQL • Redis • Postman • Rest API

Backend Architecture & Systems: Authentication (JWT/OAuth2) • API Design • JPA/Hibernate • JDBC • Data Modeling • System Design

AI & Cloud: Generative AI in Software Development • AI for Business • AI Builder • IBM Cloud Computing • Level 3 AI Agent Developer • AWS

Certifications:
- Full-Stack Web Development (Amazon)
- Salesforce Certified Administrator (Trailhead Ranger)
- Microsoft Power Platform (Dynamics 365 CRM)
- Amazon Junior Software Developer
- Database Management with Java and SQL (Amazon)
- Data Structure and Algorithms (Amazon)
- Cloud Computing (IBM)
- Git and GitHub (IBM)
- SQL Fundamentals (DataCamp)

Languages: English (Fluent) • Portuguese (Fluent) • Spanish (Advanced)

WORK EXPERIENCE

SS&C – Software Engineering Mentorship/Internship February 2025 – Present (Concurrent with Implementation role)

Mentored by Application Development Manager

- Completed a year-long engineering mentorship/internship focused on Java, Spring Boot, React, authentication flows, and scalable API Design
- Built and iterated on full-stack applications including Finance Hub CRM and Dos Santos Swim School
- Implemented Redis Caching for frequently requested resources reducing average API response time from ~220ms to ~85ms and lowering database queries per request
- Integrated OAuth2 / JWT Authentication with password reset and role-based access control; implemented secure login flows and token refresh, supporting 3 user roles and hardened endpoints with scoped permissions
- Added pagination and indexed search to the primary listing endpoints reducing payload sizes and improved client render time
- Performed code reviews, architectural discussions, and hands-on assignments pulled from real production work
- Strengthened engineering fundamentals through structured DSA practice and system design coursework
- Developed professional engineering habits: version control discipline, modular design, API documentation, and testable code patterns

SS&C – Salentica Engage (Microsoft Dynamics 365 CRM) September 2025 – Present

Salentica Implementation Consultant

- Lead end-to-end CRM implementations, owning requirements gathering, solution design, configuration, integrations, testing, and production cutover
- Implement security and compliance controls for role-based access, and audit logging to meet enterprise requirements
- Prepare customer deliverables and training including runbooks, admin playbooks, and knowledge transfer sessions to enable sustainable operations
- Reduce delivery risk by creating reusable solution patterns and templates for integrations, data migrations, and test automation

SS&C – Salentica Engage (Microsoft Dynamics 365 CRM) & Elements (Salesforce) May 2023 – September 2025

Salentica Product Consultant - Administrator

- Delivered training and documentation for 100+ wealth and asset management firms (2,000+ users), driving adoption of Salesforce and Microsoft Dynamics 365
- Handled support cases, including troubleshooting complex issues, diagnosing root causes, and implementing timely resolutions to ensure uninterrupted system functionality and user productivity
- Expertly collaborated with Salesforce and Microsoft support teams, and documented solutions for future reference and knowledge sharing within the organization
- Designed and implemented automation, dashboards, and data migration strategies aligned to client business objectives
- Acted as trusted advisor to clients, providing consultative guidance on CRM best practices and pipeline management

ASM Sports Group **August 2021 – April 2023**

Director - Soccer Placement Department – West Palm Beach, Florida

- Managed over $60M in scholarship funds consisting of athletic and academic scholarships
- Used Pipedrive CRM to create new fields, objects, leads, and list views
- Designed and developed a system for student-athlete assessment, resulting in 0 refunds over 2 years spam.
- Saved the company $100,000+ dollars by avoiding refunds
- Created and managed a database with more than 1,000 coaches (Placement Opportunities)

EDUCATION

Master of Business Leadership
William Penn University

Bachelor of Kinesiology and Health Promotion
Grand View University
